Greener buildings that don't cost the earth

Reduce energy usage and operating costs, and improve tenant services with CitectFacilities, Citect's facilities management solution. CitectFacilities integrates building automation systems such as climate, lighting and access control, CCTV and fire, into a single consistent solution and provides specialized power monitoring and energy management for single or multiple-site facilities. By offering unrivalled connectivity, flexibility and openness, CitectFacilities gives Property Owners and Facility Managers the peace of mind that their investment will be protected long into the future.
